

AMENDMENTS

Please amend the Specification as follows:

1. On page 3, 6th line, please change [maintianed] to maintained.
2. On page 5, line 15, please change between "receiving groove" and "on" please change [(32)] to 39.

The changes are made for clarity, to correct inadvertent errors and no new matter is introduced.

Please amend the Claims as follows:

1. In claim 4, fourth line, between "circular" and "spool", please change [rotable] to rotatable.

The change is made for clarity, to correct an inadvertent spelling error and no new matter is introduced.

DISCUSSION

OBJECTION TO THE DISCLOSURE

The disclosure is objected to because of the spelling informality at page 3, 6th line, *viz.* the misspelling of "maintained". This informality is corrected herein.

OBJECTION TO THE DRAWINGS

The Examiner has objected to numeral 32 in Figure 1 as referring to different elements. The Examiner correctly points out that, in Figure 2, numeral 32 is used to designate the outer end of the spring 30, as it does in Figures 1 and 3 as well. However, in Figure 1 and in Figure 3, numeral 32 also inadvertently refers to the vertical receiving groove on threaded stem 17. The error is corrected herein: newly revised Figures 1 and 3 are included - the vertical receiving groove is changed to 39 in Figures 1 and 3, and the appropriate change is made in the Specification.
